

Time to upgrade to the new Anago Analyzer a230?

Industry confidence in the Anago Sharpness Score enables the validation of your team and suppliers performance.

20% FASTER TESTING SPEED, FREES UP TIME

- Mechanical and software improvements has resulted in a 20% faster testing speed allowing you more time to improve your knife sharpness program.
- The choice is yours - test more knives in the same time period or test the same amount of knives in less time.

INTEGRATED TECHNOLOGY AND HARDWARE - ALL IN ONE UNIT

- The knife testing and scoring data is now one unit and easier to use.
- All in one unit means no laptop required and less dependency on IT staff.
- The integrated touchscreen provides full reporting and receives automatic software updates.
- Scanner functionality provides a fast, easy and accurate mechanism to enter data into your inventory system and track your knives
